

# DIETARY RECOMMENDATION

Only in case a product is labeled specially here in this catalogue you'll need a recommendation of your veterinary. Our service-hotline is free of charge, don't hesitate to call us if you have any questions about this procedure.

In the interest of optimal treatment dietary products should only be fed after a medically confirmed diagnosis. In order to send the product directly to the pet owner's address, we therefore require a written recommendation by the treating vet.

## VET OFFICE DATA
